Developer:  
COLOPL, Inc.  
Publisher:  
COLOPL, Inc.  
Release Date: 12 Sep, 2016

English,Japanese

fly to kuma maker. fly to kuma maker review

Cutest game ever! They should make more games like this.. I'm shocked to not see more glowing reviews for this game. After getting tired of the many standing shoot 'em up type Vive games available I decided to give this a try, as it looked like something different to the usual VR game available on steam. If you're a fan of Chu Chu Rocket or Lemmings, then you'll like this. It's got a great polished feel, plenty of levels and the fantastic bonus of a level maker and downloader. Compared to a lot of the arcade style VR experiences, this game has a lot more in terms of length and feels more like a traditional title. Gameplay is very simple, akin to puzzle games you can download easily for your phone, but if you're a fan of this type of game then you should get a kick out of leaning over and exploring the environment you're manipulating with your hands.
